

WORK EXPERIENCE

Cloud Solutions Architect Intern at Microsoft	Feb 2026 - Jul 2026
- Built AI agents to orchestrate data across the Microsoft security ecosystem, streamlining incident triage and enhancing SOC analyst productivity. - Developed a modular lab generator that programmatically synthesizes unique attack-defense scenarios by chaining individual vulnerabilities, leveraging Ansible and Terraform. - Collaborated with Cloud Solutions Architects during client engagements to align technical security architectures with long-term customer success goals.	
Software Engineer Trainee at CERN	Jul 2025 - Sep 2025
- Contributed to the development of a privacy-preserving federated learning framework, implementing secure protocols for the processing of sensitive healthcare and clinical datasets. - Collaborated within a research team to bridge the gap between academic ML theory and secure, production ready decentralized software solutions.	
Research Intern at EURECOM	Jul 2024 - Oct 2024
- Developed a privacy-preserving machine learning based biometric verification system using Homomorphic Encryption (HE), Multi Party Computation (MPC) and Function Secret Sharing (FSS). - Implemented the protocols in Go with the lattice-based cryptography library Lattigo. - Contributed to research leading to a published paper.	
Data Science Intern at IBTECH	Oct 2023 - Mar 2024
- Collaborated with cross-functional teams to translate banking needs into actionable data insights. - Processed and analyzed datasets containing over 5 million rows to ensure comprehensive coverage. - Utilized Python and SQL to deliver data-driven recommendations that guided strategic decisions.	
Project Intern at Sabanci Holding	Jul 2022 - Sep 2022
- Developed a lightweight Python and Qt desktop application integrating speech recognition to manipulate tire tread design files via voice commands. - Streamlined the engineering design workflow, significantly improving user interaction efficiency and reducing manual input overhead.	
Library Assistant at Galatasaray Universitesi	Oct 2021 - Jun 2022

EDUCATION

KU Leuven	Sep 2025 - Present
MSc in Cybersecurity, <i>Language of Instruction: English</i>	
Galatasaray Universitesi	Oct 2019 - Jun 2025
BSc in Computer Engineering, <i>Language of Instruction: French/Turkish</i>	
Université de Lille (Erasmus)	Sep 2022 - Jul 2023
BSc in Computer Science, <i>Language of Instruction: French</i>	

SKILLS

Programming Technologies Languages	Python, Go, C, Java, SQL, Bash, JavaScript Azure, Terraform, Bicep, Docker, Kafka, Spark, Git, Neovim, Tmux Turkish (Native), English (Fluent), French (Intermediate)
------------------------------------	---

RESEARCH

- Federation of Agents: A Semantics-Aware Communication Fabric for Large-Scale Agentic AI – L. Giusti, O. A. Werner, R. Taiello, Matilde Carvalho Costa, Emre Tosun, Andrea Protani, Marc Molina, Rodrigo Lopes de Almeida, Paolo Cacace, Diogo Reis Santos, Luigi Serio. arXiv preprint, 2509.20175 (2025). - Another Walk for Monchi – R. Taiello, E. Tosun, A. Ibarrondo, H. Chabanne, M. Önen. Cryptology ePrint Archive, 2024/1445 (2024).
